Pure Oil
NEW ZEALAND LTD

# NEW ZEALAND MADE
# VEGETABLE & FISH OILS

Pure Oil NZ produces a range of high quality fish and oilseed oils for the New Zealand petfood industry. Our oilseed range is cold pressed to create extra virgin oils with consistent fatty acid profiles and strong natural character, delivering reliable energy contribution for premium petfood formulations.

Cold pressing is a gentle extraction process that avoids chemical solvents and helps preserve the oil's natural qualities. We offer both extra virgin and refined options to meet your requirements for flavour, colour and oxidative stability. Our portfolio includes high oleic and standard rapeseed and sunflower oils, alongside a range of New Zealand fish oils, providing flexibility in nutritional profile and application performance.
